

Privacy Policy

ScoreDiff

Effective Date: April 26, 2025

Thank you for using ScoreDiff (the "App"). This Privacy Policy explains how we handle information in connection with the App. We are committed to protecting your privacy, and we want you to understand that we have designed this App with your privacy as a priority.

1. No Personal Data Collection

We do not collect, store, transmit, or share any personal data. The App does not require you to create an account, provide your name, email address, or any other identifying information.

Specifically:

- No registration or sign-in is required to use the App.
- We do not ask for your name, email address, phone number, or any other personally identifying information.
- We do not collect location data, device identifiers, or any other data that could be used to identify you.

2. On-Device Data Processing Only

All data entered into the App — including your golf scores, course ratings, slope ratings, and calculated handicap differentials — is processed exclusively on your device.

This means:

- Your data never leaves your device.
- No data is transmitted to our servers or to any third-party server.
- We have no access to any scores or calculations you perform in the App.
- Your data is stored locally on your device only, and only if you choose to save it within the App.

3. No Third-Party Sharing

Because we do not collect any data, we do not — and cannot — sell, rent, trade, or share any data with third parties, including advertisers, analytics providers, or data brokers.

The App does not integrate any third-party analytics SDKs, advertising SDKs, or tracking frameworks.

4. No Cookies or Tracking Technologies

The App does not use cookies, web beacons, pixel tags, or any similar tracking technologies. No tracking of your behaviour, usage patterns, or interactions within the App occurs.

5. Children's Privacy

Because we do not collect any personal data from any user, the App is safe for users of all ages. We comply with the Children's Online Privacy Protection Act (COPPA) and similar

applicable regulations by design: no data collection means no risk of inadvertently collecting data from children under the age of 13.

6. Data Security

Since no data is transmitted from your device, there is no risk of your golf data being intercepted, breached, or accessed by unauthorised parties through our services. Any data you enter remains under your sole control on your own device.

We encourage you to use your device's built-in security features (such as a passcode or biometric lock) to protect all data stored locally on your device.

7. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. If we make material changes, we will notify you by updating the effective date at the top of this policy and, where appropriate, through an update notice within the App. We encourage you to review this policy periodically.

Any changes will take effect as soon as the revised policy is posted. Your continued use of the App after any changes constitutes your acceptance of the updated policy.

8. Your Rights

Because we do not collect or process any personal data, rights under data protection regulations — such as the right to access, rectify, or erase personal data — are not applicable in the traditional sense. You have full and exclusive control over all data within the App at all times.

If you wish to delete all data associated with the App, simply uninstalling the App from your device will remove all locally stored data.

9. Contact Us

If you have any questions, concerns, or feedback about this Privacy Policy or the App's privacy practices, please contact us at:
